Monday, 8 March 2010 - 10:00 - 18:00

Room:
Shimba

Meeting Leaders:
Bart Boswinkel Senior Policy Advisor

<http://nbo.icann.org/node/8910>

[06:43] mib_798pv8: Hello from Guangzhou City, China!

[09:54] Dr_Eberhard: test

[09:55] Jim_Galvin: test

[09:56] Jim_Galvin: Is audio stream working for you?

[10:00] Norm_Ritchi: Hey! You starting at 10:00 or waiting for the end of the opening ceremonies?

[10:02] Dr_Eberhard: iam going to try and start as soon as we get the technic working

[10:02] Dr_Eberhard: but there is only one individual in the audienceyet

[10:16] Warren_Kuma: Hello

[10:16] Warren_Kuma: Test.

[10:19] Jim_Galvin: Hello. Are they waiting for the end of the Welcome session here?

[11:50] Bryan: My screen seems to be stuck on a slide from the previous presentation.

[12:12] Antoin: Is it me, or are there no slides in the virtual meeting room ?

[12:13] Bryan: I've got the same problem.

[12:16] Brandon_Ver: You may need to restart the virtual meeting room service.

[12:17] Bryan: anyone able to poke whoever is in charge of this virtual meeting?

[12:19] Brandon_Ver: I will speak with Nick Ashton-Heart about this issue.

[12:19] Bryan: ty

[12:22] Antoin: Restarting my browser and reconnecting didn't work, I only see the agenda slide in the virtual meeting room....

[12:34] nashton: Sorry everyone, I have contacted the staff responsible for the session

[12:35] nashton: We are working on restoring chat access, it should never have been made invisible

[12:35] Antoin: Hmm, Why do I suddenly hear classical music ?

[12:36] Antoin: Yes, poke Bart...

[12:37] nashton: getting replies from Gabi now

[12:40] Roman_Pelik: test

[12:41] mib_6d4kxx: test

[12:43] Nick_Ashton: Sorry everyone on the chat channel, you can be seen now

[12:43] Nick_Ashton: the room got rearranged somehow and the chat window was hidden

[12:44] Antoin: test

[12:44] Nick_Ashton: we read you Antoin

[12:44] Antoin: ok, looks better...

[12:44] Antoin: is there a break ? (I only hear music)

[12:45] Nick_Ashton: checking on the audio

[13:09] Brandon_Ver: Currently the session is on break until 2:00

[14:05] Bryan: Slides are still *not* working

[14:05] Bryan: Anyone else having this problem?

[14:14] Bryan_Bueck: Does anyone see the slides for this presentation?

[14:14] Norm_Ritchi: not I

[14:15] Fermin: only the agenda

[14:16] Bryan_Bueck: Is there any chance that the virtual meeting manager can enable us remote participants to see the slides?

[14:17] Bryan_Bueck: s/virtual/virtual/

[14:57] Nick_Ashton: Bryan do you need them posted or in the room here?

[14:57] Nick_Ashton: sorry, I've been in other rooms with this one hidden

[14:57] Bryan_Bueck: Nick: couldn't see any slides before, but now it seems to be working again.

[15:22] Antoin: hmm, sound turned into classical music again....

[15:22] Bryan_Bueck: sound is working fine here.

[15:24] Antoin: I'm using the <http://stream.icann.org/shimba-64-en.m3u> link from the website, and it now plays "fallback05" which plays classical music....

[15:24] Brandon_Ver: If your hearing music on <http://stream.icann.org/shimba-64-en.m3u> please reload your client and connect back to that stream again

[15:25] Antoin: Reconnecting makes me go to "fallback06"

[15:25] Brandon_Ver: Which client are you using?

[15:25] Antoin: So I think number of streams have run out..

[15:25] Antoin: VLC ofcourse

[15:25] Brandon_Ver: Check the Playlist in VLC

[15:26] Antoin: It only has "fallback" in the playlist..

[15:27] Antoin: Ok now it's back

[15:27] Antoin: After reconnecting again

[15:27] Brandon_Ver: Good to hear.

[15:27] Nigel_Rober: I've been impressed with the stability of the audio stream

[15:27] Nigel_Rober: the audio level is slightly low though

[15:32] Nigel_Rober: I never thought I'd say this: "Eberhard, please speak up!"

[15:33] nicki_lisse: that's not something you hear often...

[15:34] Nigel_Rober: audio's now disappeared altogether for me

[15:35] Suzanne_Woo: I don't think anyone is talking....

[15:35] Suzanne_Woo: ?

[15:35] Suzanne_Woo: mic is live

[15:37] Nigel_Rober: Can someone please boost the level of the feed??

[15:38] Brandon_Ver: On the Audio stream?

[15:38] Brandon_Ver: On <http://stream.icann.org/shimba-64-en.m3u> ?

[15:39] Nigel_Rober: yes

[15:39] Nigel_Rober: It's very good and stable but low level

[15:40] Brandon_Ver: Its actually quite loud for me. I think if we raise the levels more we will be overdriving the audio.

[15:43] Kristina_No: Sorry, wrong button

[15:43] Kristina_No: are you all still on the chat?

[15:43] Brandon_Ver: Nigel_Roberts: Could you just confirm for me again whether your using Adobe Connect for the Audio, or <http://stream.icann.org/shimba-64-en.m3u> for the audio stream

[15:46] Nigel_Rober: I'm connecting directly to the stream

[15:46] Nigel_Rober: and the audio is perfect now

[15:46] Nigel_Rober: I'm using Audacious for what its worth

[15:46] Brandon_Ver: Good to hear.

[15:47] Nigel_Rober: now its almost inaudible again

[15:50] Suzanne_Woo: mic, Greg

[15:50] Suzanne_Woo: thanks

[15:54] Nigel_Rober: Eberhardis fine but the other speakers are quiet

[15:56] Bryan_Bueck: slides are not updating remotely. - for me anyway.

[15:56] Martin_Levy: ditto

[15:56] Bryan_Bueck: it's ok now.

[15:57] orange: bit slow it looks like

[16:29] david_dagon: thanks everyone

[16:34] yoshiro: Is anybody in?

[16:37] yoshiro_yon: Is ccNSO Wildcard Studygroup meeting going?

[16:38] yoshiro_yon: I'm joining teleconference room, but I can't hear any voice.

[16:45] Brandon_Ver: yoshiro_yoneya: how is the audio for you?

[16:45] yoshiro_yon: good

[16:46] Brandon_Ver: Good to hear.
